OUR MISSION

We make it possible for people in Marin to achieve well-being by providing the vital services they need. Together, we break down the barriers that get in the way of fair and lasting change in service to **better outcomes for all.**

All of us deserve an equal opportunity to live our lives with dignity and respect.

In Marin County, the divide between those who are thriving and those in need continues to grow larger. For too many, access to opportunities is denied because of income level and, often, because of race. We are working together to achieve the best outcomes for our children, grandchildren, and the leaders of tomorrow, no matter what their zip code or country of origin.

Join us! Help us to create pathways toward self-sufficiency for people of low-income and to chart a strong, sustainable, and equitable future for all in our beautiful county.
