Our family did a lot of research before choosing AlmaVia, and we are now very satisfied with our decision. Our mom went from being very isolated living alone, and now enjoys friends every day, has her medications handled, regular healthy meals, and a darling little apartment that is bright and easy to maintain. We can relax now that she is safe and secure, cared for, and happier!

Get Back the Hearing You Need. See an Audiologist.

Stay Healthy.

For older adults at risk of cognitive issues, using hearing aids for three years cut their rates of cognitive decline in half. Participants saw an audiologist who fitted the hearing aids to prescriptive targets using real-ear measures and provided counseling on use. The ACHIEVE study was published in The Lancet.

At Marin Hearing we fit hearing aids this way. Call us for an audiology exam and hearing aid consultation.
